VAN SECURE COVER

OPTIMISE THE MAINTENANCE AND REPAIR OF YOUR VEHICLE

SERVICES
BY RENAULT TRUCKS

**RENAULT
TRUCKS**

Renault Trucks Secure cover provides increased protection for your van.

An ideal option for operators who control their own maintenance, our 'Secure' cover provides you with an annual safety inspection at any Renault Trucks workshop which ensure that your van meets our excellent safety standards.

This extended coverage also entitles you to roadside assistance for any warrantable failures and provides you with an extended period of protection after your warranty has come to an end.

Taking your van for an annual inspection allows our qualified Renault Trucks technicians to spot potential problems before they occur - meaning they are often much less expensive to rectify.

Key benefits

ROADSIDE ASSISTANCE in the event of a warrantable failure

ANNUAL INSPECTION at a Renault Trucks workshop

EXTENDED PROTECTION for your van after initial warranty ends

**Find out more about our Secure cover:

	Relays		■
	Windscreen wiper motors		■
BRAKES	ABS / EBS brake valves		■
	ABS / EBS sensors		■
	Brake valves and pipes		■
EXHAUST SYSTEM	Engine after-treatment system		■
CHASSIS, SUSPENSION & STEERING	Hubs and wheel bearings		■
	Rear wheel bearings		■
	Steering		■
CAB & INTERIOR	Air conditioning unit		■
	Dashboard instruments		■
	Driver's seat mechanism		■
	Heat regulation and exchanger		■
	Rearview mirrors and heating		■
	Window mechanism		■

Not included in manufacturer packages: bodywork panels, trim, tyres and equipment not supplied by the manufacturer.

Secure packages

On both the Secure Standard cover and the Secure Maxi cover the following are checked on an annual basis:

ELECTRICAL CHECK

- Dashboard instruments, warning lights and indicator lamps operation
- Fault codes, multifunction information display
- Fixing condition and connection of batteries
- Lighting condition

BRAKE CHECK

- Braking system
- Brake pads wear, brake lever
- Parking brake operation

DRIVELINE CHECK

- Axles for leakage
- Belts and tensioners condition
- Engine for leakage
- Engine noise and smoke emission
- Gearbox for leakage
- Intake circuit for leakage
- Radiator cores cleanliness
- Transmission play

SUSPENSIONS / WHEELS CHECK

- Shock absorbers mounting and condition
- Tyre wear and pressure

AXLE / STEERING / CHASSIS CHECK

- General condition of wiring fixings support
- Springs, pads and stabilizer bars condition
- Steering mechanism and front hub bearing

CAB CHECK

- Air conditioning and heating operation*
- Anti-projection protections, mudflaps condition*
- Front bumper, license plates, speed limiter disks, radiator grill and lights condition*
- General condition of bodywork
- Locks and remote control operation
- Rear bumper, anti-collision bar condition*
- Seat belts, horn, screen wipers and washers operation
- Windscreen and rear-view mirrors condition

- Wiper blades condition

OTHER CHECKS

- Condition of propshaft joint
- Coupling system condition*
- Front and rear wheel hubs for leakage
- Fuel tanks for leakage
- General condition and mounting of exhaust line system
- Hoses, ducts and pipes condition
- Hydraulic circuit and gear shift for leakage
- Level of windscreen wash, coolant, engine and steering box oil, brake fluid
- Power take off for leakage*
- Presence and mounting of noise shields
- Protection level of coolant circuit condition
- Water presence in compressed air tanks by bleeding

*Depending on the van's equipment

General terms and conditions apply.
